The APF Pet Friendly Rental List is provided as a resource for Capital Region pet owners. We hope that people will find this list useful and informative. Our listing is for rentals that accept cats\*\* and/or dogs. Please contact the individual property owner/manager to inquire about birds, fish, reptiles and small mammals.

\*\*There are some rental properties requiring that cats be declawed. While we have included those properties on the list, the APF does not support the practice of declawing. Also note that the APF provides reduced-cost spay/neuter clinics for cats. (Visit [www.animalprotective.org](http://www.animalprotective.org) for more information). Not all landlords require spay/neuter but it helps to keep your pet healthy and keeps them from contributing to pet overpopulation.\*\*

Every effort has been made to obtain accurate & complete information with the sources available at the time of release (February 2009). However, the user may find discrepancies due to updates and changes. Please contact the individual property owner/manager if there are questions.

If you are a landlord or property manager and would like to list your pet friendly properties, please contact the APF at (518) 374-3944 ext. 113. The listing of private enterprises does not indicate an endorsement of products or services by the APF.
